The Proceedings of the First Annual Convention of the American Federation of Arts  
Nov 26 2019

*History General Federation Trade Unions, 1899-1980* Jun 25 2022 When this book was originally published in 1982 the General Federation of Trade Unions (GFTU) was an organisation which catered for some 40 unions with an aggregate membership of 490,000. The GFTU in the late 20th Century was a very different organisation from what its founders in 1899 hope it might become, but in both its early and later form, it holds a significant place in the history of British trade unionism. Its history, outlined in this book sheds much light on the history of labour relations and working-class organisation in this country as a whole. The book provides a framework within which the GFTU's contribution to the history of British labour in the 20th Century may be understood.

The History of the General Federation of Women's Clubs for the First Twenty-two Years of Its Organization Aug 28 2022

**British Trade Unions, 1707-1918, Part II, Volume 7** Aug 23 2019 Drawing from a variety of libraries and archives, this collection brings together material to illustrate the history of the development of trade unionism and industrial relations. It spans the period from the early journeymen's trade societies as they emerged in the 18th-Century through to the end of the First World War. Part II, Volume 7 spans 1900-1911.

Monitoring the Movies Dec 28 2019 As movies took the country by storm in the early twentieth century, Americans argued fiercely about whether municipal or state authorities should step in to control what people could watch when they went to movie theaters, which seemed to be springing up on every corner. Many who opposed the governmental regulation of film conceded that some entity—boards populated by trusted civic leaders, for example—needed to safeguard the public good. The National Board of Review of Motion Pictures (NB), a civic group founded in New York City in 1909, emerged as a national cultural chaperon well suited to protect this emerging form of expression from state incursions. Using the National Board's extensive files, *Monitoring the Movies* offers the first full-length study of the NB and its campaign against motion-picture censorship. Jennifer Fronc traces the NB's Progressive-era founding in New York; its evolving set of "standards" for directors, producers, municipal officers, and citizens; its "city plan," which called on citizens to report screenings of condemned movies to local officials; and the spread of the NB's influence into the urban South. Ultimately, *Monitoring the Movies* shows how Americans grappled with the issues that arose alongside the powerful new medium of film: the extent of the right to produce and consume images and the proper scope of government control over what citizens can see and show.

**The Histadrut** Feb 28 2020

**The History of the General Federation of Women's Clubs** Apr 23 2022 Excerpt from

The History of the General Federation of Women's Clubs: For the First Twenty-Two Years of Its Organization The General Federation has passed its majority. For an organization with such genuine conservative action through a score of years, it is time we should look into the past, and present to those who follow its origin, the trend of life, the place the women of America hold among the women of the world, and the credit we wish to give to the men of our generation and of our country for most helpful cooperation. There has been constant constructive philosophy, literary, educational, civic, and altruistic, with no distinct period of demarcation, rather each working into and bringing out the most ideal and practical features of the other. Each administration has been in a sense personal, because the policy has been trusted to the presiding officer, but each has been wisely led, no fads or fancies allowed to creep in, and no exploiting of the organization for personal ends. When, upon order of the Convention at Cincinnati, the Committee was appointed to consider the history and bring recommendations to the Board of Directors, the names of those you will note in the book seemed peculiarly appropriate, from tried devotion, historical knowledge, and literary ability. This committee at large, without the knowledge of the one member upon whose brain and hands should fall the burden, recommended the editor, and this recommendation was unanimously adopted by the Board. We need hardly say to our readers that under such an editor the book offers historical accuracy in retrospect and action, keen insight into causes preceding this great union of force, as well as into the future possibility of well-directed effort, and a literary fascination that holds even the uninitiated. As a book of reference, it should be in every library and upon every club table. Whatever comes to woman - work with the duties of citizenship or without - we should be ready with knowledge, judgment, and poise for conservative and progressive action.
