Vespa Jun 14 2021 Perfect in its compactness, in its functionality, and in its widely imitated design, the Vespa scooter is not only a means of transport, but a true icon. In celebration of Vespa's 75th anniversary, *Vespa: Style and Passion* is the lavishly illustrated official history of the legendary scooters and the culture they've inspired. Introduced by the Italian firm Piaggio in 1946 with the model 98, Vespa enjoyed quick success. The scooters' diminutive size and affordability were perfect for promoting postwar mobility. But as with most novel designs, it would also be highly imitated, destined for icon status. From Piaggio's origins to the first Vespa prototypes to today's forward-looking Elettrica model, *Vespa: Style and Passion* is the ultimate retrospective of this beloved brand. A rich selection of visuals includes dozens of studio images of the most significant models from throughout Vespa history--including classics like the 125, 150 GS, Super Sprint, Primavera, and Rally--as well as period advertisements, rare archival photographs, and images of Vespas in popular culture and motorsport. Mod culture, perhaps most responsible for spreading scooter culture, is also given its due with images of customized Vespas. *Vespa: Style and Passion* relates with elan and high design the endless evolution of a marque that has conquered six continents, with 19 million units sold. The Vespa is not simply a scooter, but the scooter, known and appreciated the world over--a rare example of a motor vehicle that survived crises and fashions, always remaining faithful to the original concept. This is the definitive story of that influence.

La pazienza della formica May 26 2022 1998: un aereo da turismo precipita nella campagna lodigiana, poco dopo il decollo dall'aeroporto di Bresso. A bordo vengono ritrovati i resti del passeggero, Alberto Castrovillari, un notissimo manager di personaggi dello spettacolo nostrano ma non c'è traccia del corpo di Andrea Lorchi, il pilota dello sfortunato volo che, dopo alcuni giorni di ricerche, viene considerato disperso e in seguito dichiarato morto. 2019: in una

gelida mattina di fine febbraio, sul marciapiede della stazione di Milano-Rogoredo, viene rinvenuto il corpo di un barbone, presumibilmente morto di freddo. L'uomo è in pessime condizioni igienico sanitarie e viene identificato grazie ad una carta d'identità nascosta nella fodera della giacca: si tratta di Andrea Lorchi, anche se sul documento c'è il nome di Charles Martin, un cittadino francese residente in Guyana. La ricomparsa di Lorchi a vent'anni dall'incidente aereo pone molti interrogativi su come siano andate veramente le cose nel 1998 e la squadra della Questura di Lodi, di cui fa parte l'ispettrice Luce Frambelli, viene incaricata d'indagare su quello che a tutti gli effetti è un cold case. Molte cose sono cambiate in Questura, i fragili equilibri sono stati alterati da un evento tragico che ha sconvolto tutti e anche i rapporti tra colleghi subiscono mutamenti imprevedibili. Quello che non è cambiato è la determinazione di Luce a non arrendersi alle apparenze. La morte di Lorchi, subito archiviata come evento accidentale, ha molti aspetti poco chiari che le fanno sospettare un legame tra l'incidente del 1998 e il ritrovamento del suo cadavere. Ancora una volta, però, la sua richiesta di verità cadrà inascoltata e l'ispettrice, sempre più sola, non esiterà a mettere a rischio la carriera, pur di soddisfare la propria fame di giustizia. Sullo sfondo di un clima impazzito, che alterna il gelo polare al caldo estivo, sarà necessario intrecciare i fili che legano il passato al presente, in un'indagine che porterà Luce Frambelli da Lodi a Milano e scaverà a fondo nell'anima nera della città. Marina Bertamoni è nata a Milano nel 1961. Laureata in Scienze Geologiche, lavora da più di trent'anni in una multinazionale dell'energia. Scrive racconti e romanzi gialli e noir, ambientati nella provincia italiana. Suoi racconti sono presenti nelle antologie dei premi "Orme Gialle" e "Garfagnana in Giallo", mentre i romanzi che hanno per protagonista Luce Frambelli, giovane ispettrice della Questura di Lodi, pubblicati da Fratelli Frilli Editori, sono stati premiati in prestigiosi concorsi letterari, tra i quali ricordiamo il "Premio Letterario Internazionale Lago Gerundo" e il "Premio Letterario Festival Giallo Garda".

In the exotic garden staged in the museum's rotunda, a Chinese dragon dances to the beat of drums as it weaves through the crowd. But Theodosia makes a grim discovery behind the booth's curtains: the body of museum donor Edgar Webster. Out. Fuori da Ogni Controllo Dec 01 2022 La vita di Cindy Sanders, è ormai un vortice di pensieri disconnessi. Tutto ciò in cui ha sempre creduto si è rivelato un castello di carte, che è crollato al primo soffio di vento. Chi l'ha cresciuta non è la sua vera madre e ora, al suo primo anno di college alla Columbia, sa di non essere lì per caso, a New York, a sole poche ore di distanza dal luogo in cui è stata messa al mondo. Fidarsi di qualcuno diventa difficile, se non impossibile, persino Damian, suo fratello, l'osserva allontanarsi, giorno dopo giorno. Poi, però qualcosa cambia. Nicolas si insinua sicuro nella sua vita, in quella piccola parte di lei che non ha mai concesso a nessuno, quella parte che insegue la speranza di tornare a vivere oltre il passato. Tutto assume un'altra forma, il dolore sembra alleviato, un lontano ricordo, ma proprio mentre le acque sembrano essersi calmate, si rende conto che in Nick qualcosa non va; è intrappolato lui stesso in un passato al quale lei non è mai riuscita ad affacciarsi. Un passato che potrebbe essere più complicato del suo. E lei potrebbe essere l'unica persona a poterlo salvare. Perché quando la vita ti trascina a fondo, puoi solo aggrapparti con tutto te stesso a chi occupa il tuo cuore. Lottare ed amare. Ma se non bastasse? Manuela Ricci, nata a Olbia nel 1984, vive a Budoni, un paese turistico sulla costa nord-orientale della Sardegna. Moglie e madre di un bambino di sette anni. Ha conosciuto per caso la piattaforma Wattpad dove hanno preso vita le sue storie, dividendo così la sua vita fra la famiglia di giorno e la scrittura di notte. Con il Gruppo Albatros ha già pubblicato la trilogia UN AMORE PROIBITO e ora torna con OUT Fuori da Ogni Controllo, romanzo appartenente alla serie The Prohibited Serie.

The Book of L Jan 10 2021 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and o (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Un'estate a tre cilindri Oct 31 2022 Il libro è il resoconto di due settimane in Corsica, a bordo della Triumph, la moto chiamata familiarmente 'inglesina'. Sgamma racconta la vacanza in prima persona, inserendo quegli episodi, più o meno di fantasia, più o meno realistici o verosimiglianti che gli sono capitati. Ogni giornata si apre con un incubo che l'autore vive al termine della notte, in prossimità del risveglio mattutino. Nei sogni inquieti, come in altri episodi che avvengono da sveglio, si percepisce il legame che Sgamma ha con la letteratura del genere soprannaturale, paranormale o irreale. Sgamma descrive bene le situazioni, la sua penna è abile e dipinge persone, cose, avvenimenti con tocchi esperti, che giungono al lettore in modo convincente. Il ricorso all'onirico ed all'irreale frequentemente trasporta il lettore in un terreno che all'inizio non si aspetta, autentici flash di suspense. Troviamo la misteriosa Svetlana, prima immaginata come un fantasma, poi ricondotta alla realtà in un improbabile incontro sulla via del ritorno e ancora trasformatasi in figura avvolta dal mistero. Anche l'incontro con il commendatore ha un che di iperrealistico, un'avventura alla Bukowsky che si inserisce inaspettata. Belle le serate di baldoria nei bar o le meditazioni sull'esistenza, come l'incontro con il pittore o lo scontro iniziale con la Gendarmerie, dove si percepiscono vicende reali. Ecco, il pregio del libro che lo pone al di fuori dagli schemi di un semplice diario vacanziero, sta in questa alternanza paritetica fra il reale e l'irreale, tanto che a volte il lettore è portato ad interrogarsi se la pagina che sta leggendo descriva episodi dell'una o dell'altra categoria. Il libro potrà piacere ai motociclisti: la passione per il cavallo ferrato è autentica e convincente. Potrà anche piacere alla categoria degli amanti del paranormale o dell'horror, alla quale l'autore strizza sempre l'occhio, essendo lui stesso cultore del genere. Potrebbe anche interessare chi si dedica, per professione o per diletto, all'interpretazione dei sogni: troverà

dovizia di episodi e potrà mettersi alla prova. Insomma una proposta valida ed interessante, alla maniera di Michele Sgemma.
