Catholic Social Teaching and Theologies of Peace in Northern Ireland Sep 19 2021 This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late Twentieth Century. It does so through the prism of the writings of Cardinal Cahal Daly (1917-2009), the only member of the hierarchy to serve as a bishop throughout the entire conflict. This book uses the prolific writings of Cardinal Daly to create a vision of the 'Peaceable Kingdom' and demonstrate how Catholic social teaching has been used to promote peace, justice and nonviolence. It also explores the public role of the Catholic Church in situations of violence and conflict, as well as the importance for national churches in developing a voice in the public square. Finally, the book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence, as evidenced by austerity, and reactions to Brexit in the United Kingdom, is now the norm. This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland. It will, therefore, be a key resource for scholars of Religious Studies, Catholic Theology, Religion and Violence, Peace Studies, and Twentieth Century History.

Modern Catholic Social Teaching Aug 31 2022 Including contributions from twenty-two leading moral theologians, this volume is the most thorough assessment of modern Roman Catholic social teaching available. In addition to interrogations of the major documents, it provides insight into the biblical and philosophical foundations of Catholic social teaching, addresses the doctrinal issues that arise in such a context, and explores the social thought leading up to the "modern" era, which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII's *Rerum Novarum*. The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address. This second edition includes revised and updated essays as well as two new commentaries: one on Pope Benedict XVI's encyclical

Caritas in Veritate and one on Pope Francis's encyclical Laudato Si'. An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching.

Catholic Social Teaching and Pope Benedict XVI _____ Mar 14 2021 Celebrated moral theologian Charles E. Curran examines and critiques Pope Benedict XVI's contribution to Catholic social teaching in this Georgetown Digital Short, available exclusively in this concise digital format. In his eight-year pontificate (2005-13) Pope Benedict XVI wrote two encyclicals that are significant for Catholic social teaching: Deus caritas est (God Is Love) in 2005, and Caritas in veritate (Charity In Truth) in 2009. Curran analyzes and compares the teaching proposed in these two encyclicals, given that these two documents reflect differing approaches. He explores presuppositions found in Caritas in veritate within the tradition of Catholic social teaching and discusses the theological, ethical, and ecclesial methodologies of the encyclical. Examining the substance and content of Caritas in veritate and its relationship to Catholic social teaching, Curran focuses on its approach to the person, political and civil society, and specific issues and topics. This is the first exploration of Pope Benedict XVI's impact on Catholic social teaching. Georgetown Digital Shorts—longer than an article, shorter than a book—deliver timely works of peer-reviewed scholarship in a fast-paced, agile environment. They present new ideas and original texts that are easily and widely available to students, scholars, libraries, and general readers.

Reclaiming Catholic Social Teaching Jun 28 2022 Many claim that Catholic Social Teaching implies the existence of a vast welfare state. In these pages, Anthony Esolen pulls back the curtain on these false philosophers, showing how they've undermined the authentic social teachings of the Church in order to neutralize the biggest threat to their plans for secularization — the Catholic Church. With the voluminous writings of Pope Leo XIII as his guide, Esolen explains that Catholic Social Teaching isn't focused exclusively on serving the poor. Indeed, it offers us a rich treasure of insights about the nature of man, his eternal destiny, the sanctity of marriage, and the important role of the family in building a coherent and harmonious society. Catholic Social Teaching, explains Pope Leo, offers a unified worldview. What the Church says about the family is inextricable from what She says about the poor; and what She says about the Eucharist informs the essence of Her teachings on education, the arts — and even government. You will step away from these pages with a profound understanding of the root causes of the ills that afflict our society, and — thanks to Pope Leo and Anthony Esolen — well equipped to propose compelling remedies for them. Only an authentically Catholic culture provides for a stable and virtuous society that allows Christians to do the real work that can unite rich and poor. We must reclaim Catholic Social Teaching if we are to transform our society into the ideal mapped out by Pope Leo: a land of sinners, yes, but one enriched with love of God and

neighbor and sustained by the very heart of the Church's social teaching: the most holy Eucharist.

Towards a Politics of Communion Apr 14 2021 Anna

Rowlands offers a guide to the main time periods, key figures, documents and themes of thinking developed as Catholic Social Teaching (CST). A wealth of material has been produced by the Catholic Church during its long history which considers the implications of scripture, doctrine and natural law for the way these elements live together in community - most particularly in the tradition of social encyclicals dating from 1891.

Rowlands takes a fresh approach in weaving overviews of the central principles with the development of thinking on political community and democracy, migration, and integral ecology, and by considering the increasingly critical questions concerning the role of CST in a pluralist and post-secular context. As such this book offers both an incisive overview of this distinctive body of Catholic political theology and a new and challenging contribution to the debate about the transformative potential of CST in contemporary society.

Church, State, and Society Apr 02 2020 How can the Catholic faith help not only Catholics, but all people, build a just and flourishing society? The Catholic Church contributes first and foremost to the common good by forming the consciences of the faithful. Faith helps reason achieve an understanding of the common good and guides individuals in living justly and harmoniously. In this book, J. Brian Benestad provides a detailed, accessible introduction to Catholic social doctrine (CSD), the Church's teachings on the human person, the family, society, political life, charity, justice, and social justice. Church, State, and Society explains the nuanced understanding of human dignity and the common good found in the Catholic intellectual tradition. It makes the case that liberal-arts education is an

essential part of the common good because it helps people understand their dignity and all that justice requires. The author shows the influence of ancient and modern political philosophy and examines St. Augustine, St. Thomas Aquinas, papal social encyclicals, Vatican Council II, and postconciliar magisterial teaching. Benestad highlights the teachings of popes John Paul II and Benedict XVI that the attainment of the common good depends on the practice of the virtues by citizens and leaders alike. In addition to discussing the tension between CSD and liberal democracy, the book takes an in-depth look at: -Key themes of social life: the dignity of the human person, human rights, natural law, and the common good -Three principal mediating institutions of civil society: family, Church, and Catholic university -The economy, work, poverty, immigration, and the environment -The international community and just war principles "Excellent . . . The best treatment of Catholic Social Doctrine as a whole and a precious reminder of the intrinsically problematic character of modern democracy." —Perspectives on Political Science

Catholic Social Teaching, 1891-Present Oct 28 2019 Charles E. Curran offers the first comprehensive analysis and criticism of the development of modern

Catholic social teaching from the perspective of theology, ethics, and church history. Curran studies the methodology and content of the documents of Catholic social teaching, generally understood as comprising twelve papal letters beginning with Leo XIII's 1891 encyclical *Rerum novarum*, two documents from Vatican II, and two pastoral letters of the U.S. bishops. He contends that the fundamental basis for this body of teaching comes from an anthropological perspective that recognizes both the inherent dignity and the social nature of the human person—thus do the church's teachings on political and economic matters chart a middle course between the two extremes of individualism and collectivism. The documents themselves tend to downplay any discontinuities with previous documents, but Curran's systematic analysis reveals the significant historical developments that have occurred over the course of more than a century. Although greatly appreciative of the many strengths of this teaching, Curran also points out the weaknesses and continuing tensions in Catholic social teaching today. Intended for scholars and students of Catholic social ethics, as well as those involved in Catholic social ministry, this volume will also appeal to non-Catholic readers interested in an understanding and evaluation of Catholic social teaching.

The Church's Best-Kept Secret Feb 22 2022 The Church's Best-Kept Secret is a short primer which lays out the basics of Catholic social teaching in a way accessible to the ordinary Catholic as well as to any other person of good will attempting to grasp this often profoundly misunderstood area of Church doctrine and practice. Writing in everyday language for the non-scholar, award-winning writer Mark Shea concisely describes the roots of Catholic social teaching in Scripture and Tradition and gives simple, practical examples of how it works in ordinary life. Sketching the meaning of the Dignity of the Human Person, the Common Good, Subsidiarity, and Solidarity, Shea bridges the gulf in our politics and cultural warfare to make the case that Catholic Social Teaching, properly understood, is common sense, as well as the path to living a happier and more just common life for each human person.

Catholic Social Teaching as Theology Mar 02 2020 Explores the theological dimension of Catholic social teaching by showing how magisterial documents dealing with social issues are a path to enter into the mystery of the Christian God and to produce "theo-logy": a reasoned discourse about the divine.

The Liturgy and Catholic Social Teaching Jan 12 2021 Catholic social teaching guides us in how we are to live the Gospel in today's world. Liturgy forms us in these teachings and sends us out into the world to give witness to the Gospel. It provides insights for parish teams on how Catholics

might better live what it is we celebrate each time we gather to worship God and express more fully, consciously, and actively what it means to be in right relationship with God and the world. With questions for discussion and reflection following each thematic chapter, worship teams, parish councils, and peace and justice committees will be able to evaluate and improve parish liturgical practices and ministerial outreach as rooted in Catholic social teaching. With penitential services organized by each of the seven themes, this resource also provides parishioners with the means to examine their own consciences, make acts of reparation, and resolve to be more committed to following the teachings of the Church. Liturgy and Catholic Social Teaching is sure to help build a world that more closely reflects the love and mercy, justice, and peace of God. Love in Action Jan 04 2023 Described as 'the Catholic church's best kept secret,' Catholic Social Teaching provides a rich body of thought, and finds a particular resonance as all denominations in the church seek to engage with the needs of contemporary society. who come from traditions beyond the movement's traditional catholic heartlands but who seek to view their ministry through the lens of generous orthodoxy, "Love in Action" offers a deeply scriptural but accessible introduction to this vital approach to the church's ministry in the world.

Peacebuilding and Catholic Social Teaching

May 28 2022

The Roman Catholic Church, with its global reach, centralized organization, and more than 1.4 billion members, could be one of the world's most significant forces in global peacemaking, and yet its robust tradition of social teaching on peace is not widely known. In Peacebuilding and Catholic Social Teaching, Theodora Hawksley aims to make that tradition better known and understood, and to encourage its continued development in light of the lived experience of Catholics engaged in peacebuilding and conflict transformation worldwide. The first part of this book analyzes the development of Catholic social teaching on peace from the time of the early Church fathers to the present, drawing attention to points of tension and areas in need of development. The second part engages in constructive theological work, exploring how the existing tradition might develop in order to support the efforts of Catholic peacebuilders and respond to the distinctive challenges of contemporary conflict.

Peacebuilding and Catholic Social Teaching is one of the first scholarly monographs dedicated exclusively to theology, ethics, and peacebuilding. It will appeal to

students and academics who specialize in Catholic social teaching and peacebuilding, to practitioners of Catholic peacebuilding, and to anyone with an interest in religion and peacebuilding more generally.

Catholic Social Teaching and the Market Economy Jan 24
2022 This volume, taking account of recent developments in both political economy and Catholic social teaching, examines the extent to which that teaching can be used to justify the free market, or alternative forms of political and economic organization, in areas such as taxation, welfare, foreign aid, labor markets and business. Throughout history, but particularly in the last century or so, the Catholic Church has developed a formal body of teaching on economic and political matters. Other Christian faiths have absorbed much of that work, as have non-Christians, and thus the body of Catholic social teaching has often been influential in the public policy arena. The book also critically examines the general case for an interventionist state in the economic sphere, as well as the importance of the development of responsible culture, underpinned by sound education, in a free society.

Sustainable Development Goals and the Catholic Church Dec 11 2020 This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nation's (UN) Sustainable Development Goals (SDGs). With Pope Francis' *Laudato si'* encyclical, Catholicism seems to be engaging more than ever with environmental and developmental concerns. However, there remains the question of how these theological statements will be put into practice. The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development. Therefore, with the use of the comparative

method, this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN's 17 SDGs are addressed by Catholic Social Teaching. Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda 2030 Goals, as well as assessing how and if it can contribute to shaping the contemporary concept of global development. Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 Goals, this volume will be of keen interest to scholars of Catholic Studies, Religious Studies and the Sociology of Religion, as well as Environmental Studies and Development Studies.
